

POLYJOHN SPRINGS

SPRING REPLACEMENT GUIDE

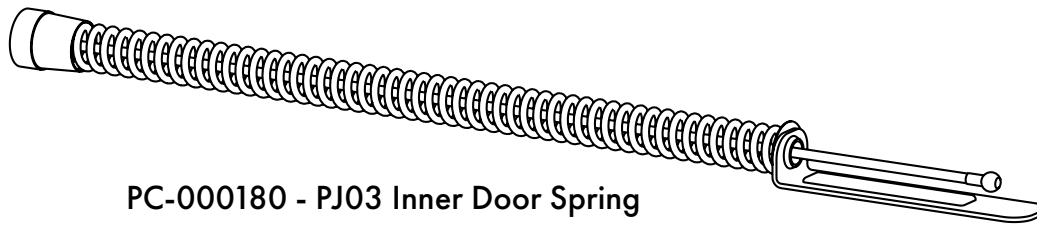

PolyJohn has been in business since 1984. Throughout the years, the springs have evolved with the design of our restrooms. Below is a replacement purchasing guide for them. All the springs below are available for purchase, with the exception of the PC-000800. The PC-100800 is a direct replacement for that, however, it is recommended that the PC-000181 S (steel) be replaced with the PC-000181 (plastic) when doing so.

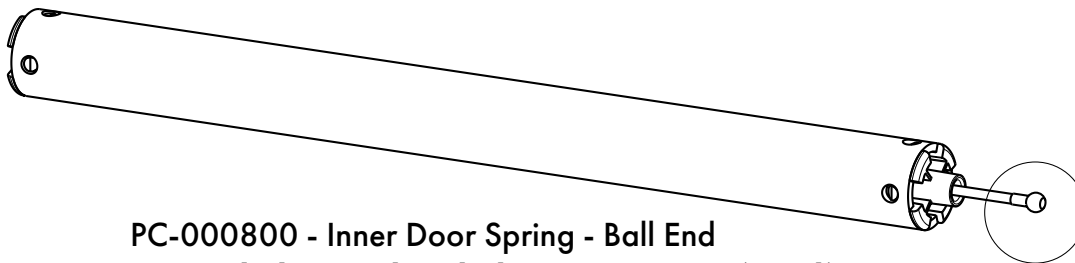

POLYJOHN[®]
there when you need us

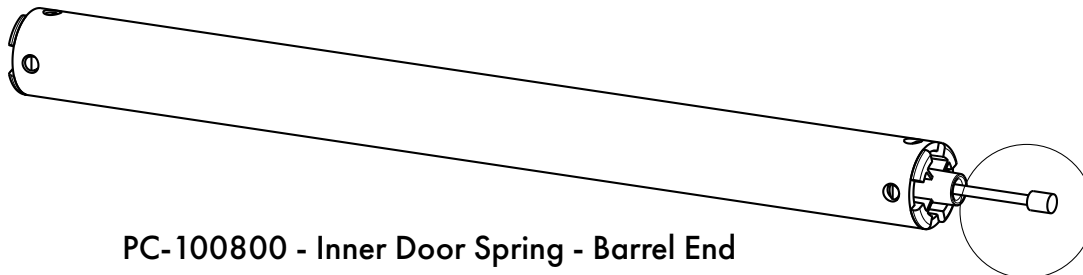

PC-000190 - Extension Spring
Used in the PJ03 from 1984-1991
Used in the PH01 from 1987-2005

PC-000180 - PJ03 Inner Door Spring
Used in the PJ03 from 1992-2000

PC-000800 - Inner Door Spring - Ball End
Can only be used with the PC-000181 S (steel)
Discontinued in 2019. Replace with PC-100800

PC-100800 - Inner Door Spring - Barrel End
Used in PJN3, Fleet, Comfort XL, We'll Care III
When replacing from the PC-000800, it is recommended to use the PC-000181 plastic clip.
